## **Shikino High-Tech and AGNEZ TECH Start Collaboration to Expand Sales into Semiconductor Market in Taiwan**

Shikino High-Tech Co., Ltd. (hereinafter, Shikino) and AGNEZ TECH INC. (hereinafter, Agnez), Agnez designs circuit boards for semiconductor testing etc., have begun collaboration to expand sales into the semiconductor market in Taiwan.

Shikino has already begun selling testing equipment to the semiconductor market in Taiwan but collaborating with Agnez, which head office is in the Hsinchu area of Taiwan where is driving the global semiconductor market, will be able to strengthen its local support capability for existing customers and accelerate sales expansion to new customers including OSATs.

In addition, by understanding the needs of the Taiwan market, where produces cutting-edge semiconductors, Shikino will enhance its development of next generation testing equipment and promote further entry into a wide range of technology fields, such as high power, high voltage, high speed fields expected to grow increasingly in the future.

### **Comment from Jacob Peng, CEO of Agnez:**

**We are excited with the opportunity to work closely with Shikino High-Tech as a semiconductor partner and look forward to providing more testing solutions and services in the semiconductor. We will fully support Shikino High-Tech business in Taiwan, including technical support, resource sharing and equipment maintenance, etc.**

### **About AGNEZ TECH INC.:**

AGNEZ TECH INC. is founded in 2010. The main business activity is PCB design, assembly, conformal coating and repair for semiconductor testing. Maintenance and repair of test equipment are also supported. Customer range is wide from domestic companies to oversea companies.

Address : No.286, Pucian Rd., Siangshan Dist., Hsinchu City 300066, Taiwan, R.O.C

CEO : Jacob Peng
